Continuation of 4(e) Other: amendments to a claim must be made by rewriting the entire claim with all changes (e.g., additions and deletions). All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of "currently amended," and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. In the instant case, changes to text of claims 1, 4, and 12 is not made to the immediate prior version the claims. As to claim 1, at line 16 preposition "to" is currently added. However, this preposition was already present in the immediate prior version of the claim. As to claim 4, analogous issue with regards to preposition "to" is noted at line 17. Further, as to claim 4, the immediate prior version recited "a device hosting....". Currently amended version lists "hosting" as newly added by underlining the word followed by semicolon. Applicant is advised to verify whether semicolon following the word "hosting" is proper. Still further, as to claim 4, the last three lines of the claim body do not reflect changes to the immediate prior version of the claim, as required. As to claim 12, line 16 of the claim does not reflect changes to the immediate prior version of the claim. Appropriate correction is required.
